

# The Pulse of IT

## What our latest stats reveal around **Mobility**

### Q.1

Which of the following mobile security threats are concerns for your organization? Select all that apply, and then rank the top three mobile security threats in order of greatest concern for your organization.

- 57%** Network vulnerabilities
- 51%** OS vulnerabilities
- 51%** Exposure to sensitive information
- 44%** Physical device loss
- 39%** Credential leaks
- 32%** Misuse of apps
- 16%** Jailbroken devices

Network vulnerabilities are among top ranked mobile security concerns among IT decision makers.

### Q.2

Will your organization support BYOD (bring your own device) in 2016?

58% of IT decision makers will continue supporting BYOD in 2016. In contrast, only 15% have never supported BYOD and have no plans for the future.

**58%** Yes, we will continue supporting BYOD

**19%** Yes, we will start supporting BYOD

**15%** We have never supported BYOD, and have no plans in the future

**4%** No, we will stop supporting BYOD

**4%** Not sure

### Q.3

How likely is your organization to change your MDM (mobile device management) solution in 2016?

**40%** Unlikely—we are happy with our current solution

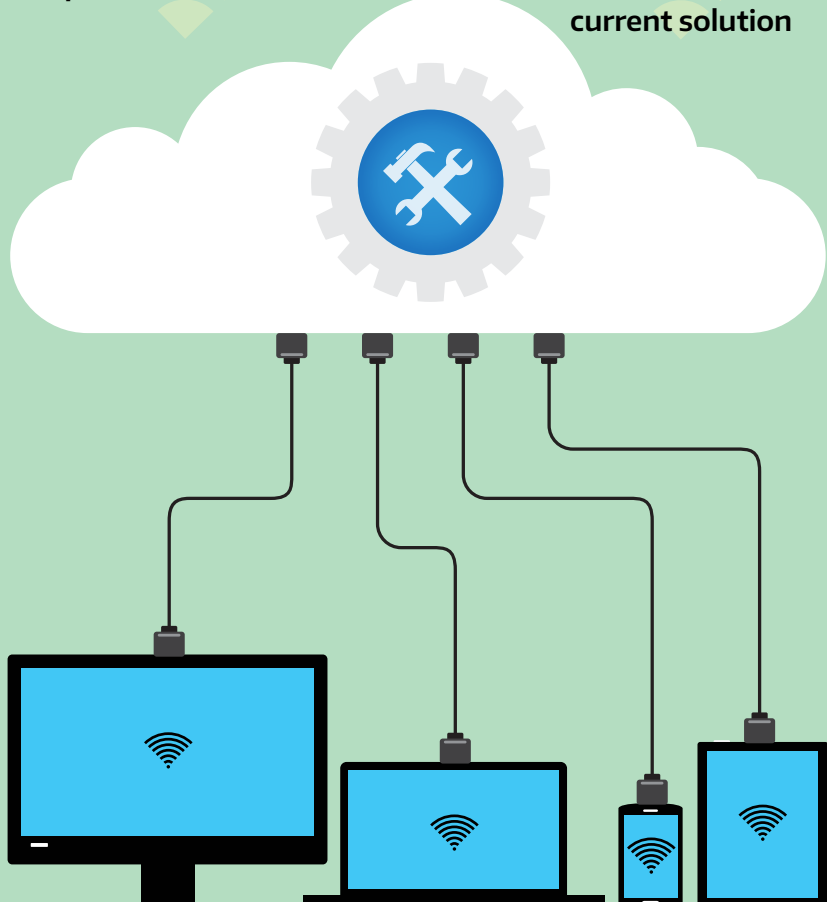

**35%** We are not sure—we have this plan under evaluation

**16%** Very likely—we are not satisfied with our current solution

**5%** We have not deployed MDM yet and have no plans to do so

**4%** We have not deployed MDM yet, but are planning to in the future

40% of IT decision makers are happy with their current MDM solution and will not change in 2016. Nearly the same number (35%) are unsure and have the plan under evaluation.
