

Go Beyond Antivirus & Endpoint Detection and Response

94% of cyberattacks come in via email.*

Protect your organization with a simple endpoint security solution that keeps employees productive

 Stops attacks including phishing and ransomware using hardware-enforced isolation technology	 Credential protection prevents hackers from stealing user credentials	 Secure browser isolates threats and prevents personal browsing from corrupting corporate assets
--	--	--

Security Operations Efficiency

1	 FLEXIBLE CONTROLS	Cloud or On-premises management and data retention
	 LESS WORK	Fewer high priority tickets and less remediation
	 EASY INTEGRATION	Augments and integrates into established security architectures

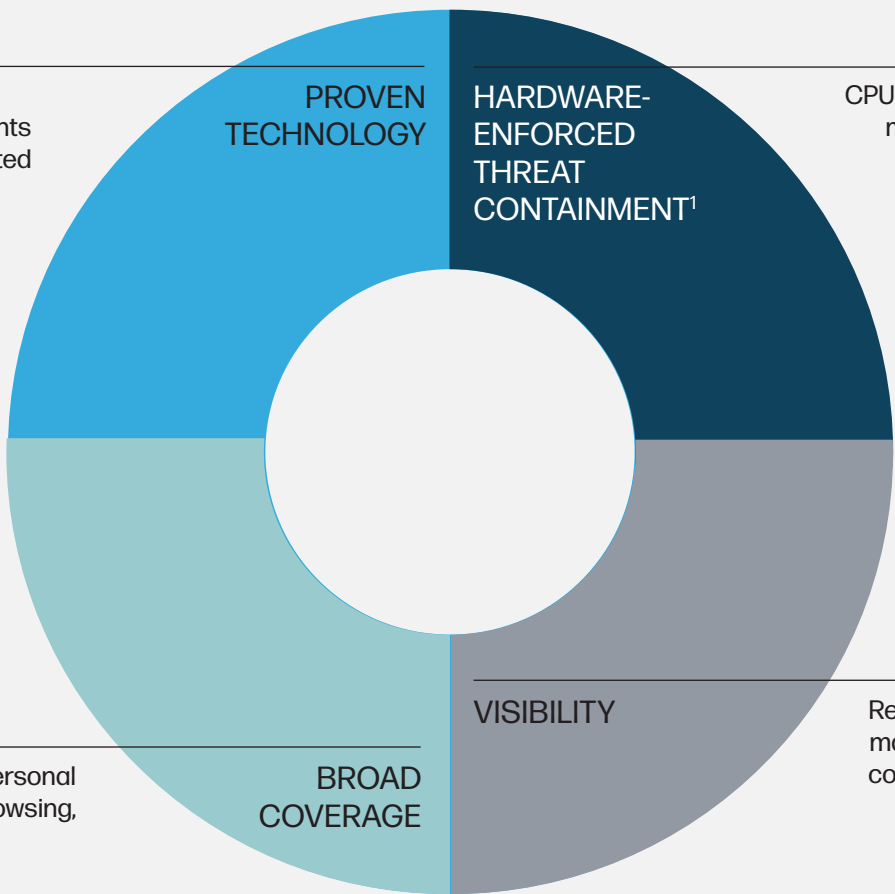

Protection You Can Trust

25 billion web clicks, downloads and attachments protected without a reported compromise²

Defends corporate and personal email, documents, web browsing, and USB devices

PROVEN TECHNOLOGY	HARDWARE-ENFORCED THREAT CONTAINMENT ¹
BROAD COVERAGE	VISIBILITY

CPU-enforced isolation means malware can't get around it

Real-time analytics captures malware forensics to bolster corporate threat intelligence

Keep Employees Productive

3			
	WORK WITHOUT WORRY Users work with documents and the web as normal, without worrying about infecting the organization	LESS RELIANCE ON TRAINING Users do not have to be trained as “human phishing detectors”	FULL PROTECTION ANYWHERE Work securely from home, office or on the road whether on the internet or off

¹HP Sure Click Enterprise is sold separately. Supported attachments include Microsoft Office (Word, Excel, PowerPoint) and PDF files, when Microsoft Office or Adobe Acrobat are installed. For full system requirements, please visit [System Requirements for HP Sure Click Enterprise](#) for details.

² Assumptions based on HP internal analysis of customer report insights and installed based.
