Understanding in-store trends and challenges in a digital world

We're living in a connected, hyper-competitive world where customer loyalty is hard to earn and easily lost. As informed consumers face ever more tempting choices, store owners must be ready to meet the challenges of a rapidly evolving retail industry landscape.

Higher competition

With the rise of online shopping, there's never been a wider choice of digital and physical retail propositions jostling for time-pressed consumers' attention.

More discerning customers

Smart shoppers have already done their homework before they set foot in your store. And the impressions they share online can impact instantly on your brand.

Rise of experiential marketing

Today's discerning consumers expect an immersive, interactive shopping experience that's sleek, personal and emotionally rewarding.

Meeting in-store expectations

Consumers expect clear guidance to help them navigate quickly to where they want to be, plus timely information on products and promotional offers as they shop.

Rethink retail

Discover how our innovative display solutions empower retail brands to create deeper, more rewarding digital customer experiences.

Create unique interactive shopping experiences

Modernise and simplify your operations

Boost sales and customer engagement

Improve brand awareness

QSR

Quick-service food & beverage trends

Competitive market

Intense market competition makes it essential for restaurants to innovate to attract and delight guests.

Tech-native diners

Customers demand a smooth, interactive self-order experience that matches their online shopping interactions.

Flexible solutions for time-pressed diners

New technology enables restaurants to provide real-time information, product offerings and promotions.

Supporting sustainability

Diners expect food & beverage brands to demonstrate their commitment to the environment.

Advertising

Our high-brightness BRAVIA BZ40L Professional Displays, available in screen sizes up to 85" are ideal for presenting offers with rich colour, enhanced by Deep Black Non-Glare Coating technology for high-impact pictures that grab your audience's attention from any angle. The SLS-1A Line Array speaker delivers clear and powerful promotional messages that can be heard in busy environments.

Attracting customers

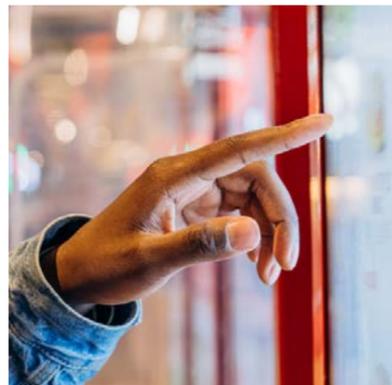

With screens sizes up to 85", our high-brightness BZ40L Professional Displays will dazzle diners in your restaurants with spectacular image quality, enhanced by Deep Black Non-Glare Coating technology for high-impact pictures from any angle. Complementing this visual experience, the SLS-1A speaker enhances this immersion with powerful sound that surrounds your visitors.

Menu boards

The extra wide angle of our BZ30L and BZ35L Professional Displays allow your diners to view the menu boards, no matter where they stand in your QSR outlet.

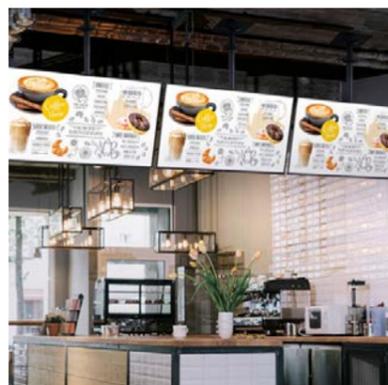

Retail displays for every QSR dining visit

Our retail display solutions help QSR outlets grab shoppers' attention, streamline order handling, increase impulse sales opportunities and guide diners through a mouth-watering food and beverage experience.

Empower customer choices

Help QSR diners choose and order more quickly and efficiently

Attract and delight guests

Generate customer excitement with bright true to life menus

Drive new sales opportunities

Highlight promotions and boost impulse purchases in real time

Placing orders

Create interactive boards for shoppers to place and review their orders with our BZ30L and BZ35L Professional Displays. Our displays are ideal partners for interactive self-order kiosks, enabling quick and efficient operations and allowing restaurants to offer profitable upselling opportunities.

Back of house

Ideal for back of house operations, BZ35L Professional Displays offer an extra wide viewing angle available in a wide range of sizes up to 85".

Automotive showrooms

Car dealership trends

Waiting times

Extended wait times from purchase to delivery make it essential to create a more engaging showroom experience.

Consumer habits

With increased remote purchases, dealerships must lure clientele back to the showroom with a 'wow' factor.

Consumer expectations

Dealerships must meet 'phygital' service demands with interactive technologies which allow for personalisation.

Sustainability

Dealerships are struggling to keep pace with constant innovation in an environmentally friendly way.

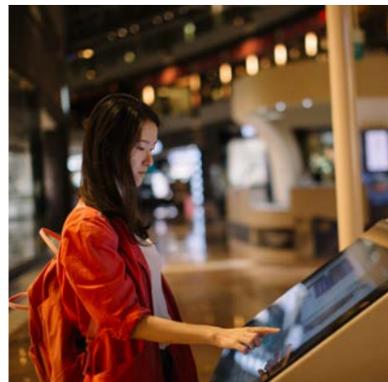

Automotive Retail Display Solutions

Sony's large-screen displays present the perfect solution for car showrooms. They can be fully integrated with existing operations to project awe-inspiring ads, relay model information, craft an immersive experience, and allow for personalised user interaction.

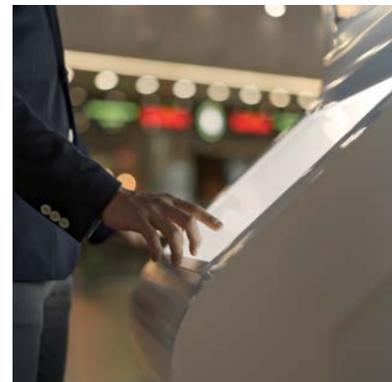

Capture attention

Sony's retail displays are tailored to create an eye-catching, welcoming environment, which conjure a positive sense of wonder and discovery in the customer from the minute they walk in.

Improve Brand Awareness

Our digital signage solutions offer holistic client care in the form of advertising, education, and customer service from an interactive hub which fosters greater brand awareness and deepens brand loyalty to increase foot traffic.

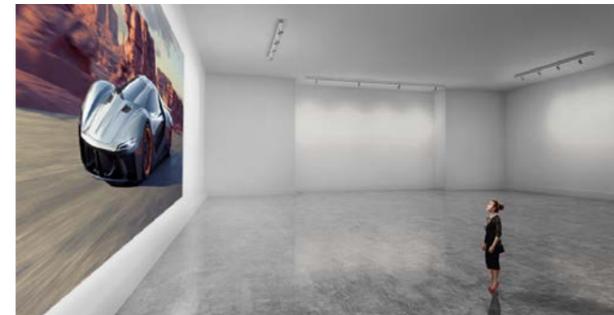

Optimise performance

Our interactive displays maximise revenue by creating an ecosystem in which vendors can streamline ads, branding, and brochures while offering customers an engaging experience to drive purchases.

Attracting Customers

Our Crystal LED BH/CH-series video walls offer the immersive visual experience that will drive customers to your car showroom. For less conventional spaces, the VPL-GTZ380 projector can throw spectacular super-size images onto any shape or type of surface. Dazzle shoppers and attract them into your car dealership. Complementing this visual experience, the SLS-1A speaker enhances this immersion with powerful sound that surrounds your visitors.

Advertising

Our high-brightness BRAVIA BZ40L Professional Displays are ideal for presenting offers with rich vivid colours, in screen sizes up to 85". Your advertisement will stand out with our biggest 98" BRAVIA BZ50L Professional Display. The SLS-1A Line Array speaker delivers clear and powerful promotional messages that can be heard in busy environments.

Managing operations

Ideal for managing the operations of your sales teams, BZ35L Professional Displays offer an extra wide viewing angle available in a wide range of sizes up to 85" to fit every meeting room.

Shopping centres

Trends for busy malls

Intense competition

Innovate to satisfy shoppers' high expectations to adapt to a new landscape.

Rapidly changing spatial demands

Shopping centre owners need to offer flexible units that adapt to rapidly shifting customer demands.

Embracing digitalisation

New technologies allow sites to run more efficiently and create 'phygital' experiences to delight visitors

Supporting sustainability

Shopping centre owners must support retailers' efforts to become more sustainable at point of sale.

Retail displays for shopping centres

Our display solutions for shopping centres transform every customer visit into an immersive, interactive multi-sensory experience.

Inform shoppers

Keep shoppers informed with relevant, up-to-date news and general information on special events, closures, parking, health & safety and other information to enhance their visit.

Create that wow effect

Grab visitors' attention with immersive visual and audiovisual experiences that transform shopping centres into all-day leisure destinations.

Optimise performance

Our interactive displays maximise revenue by creating an ecosystem in which vendors can streamline ads, branding, and brochures while offering customers an engaging, immaculate experience to drive purchases.

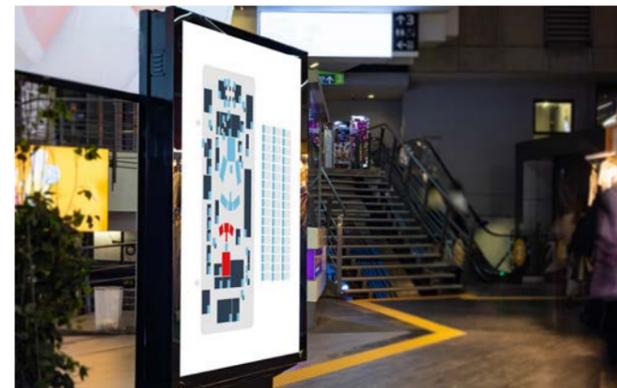

Attracting Customers

Capture shoppers' attention as they navigate through your shopping centre with colourful, super-sized visuals. Extra bright VPL-GTZ380 and VPL-PHZ61 laser projectors can throw vibrant images onto curved and contoured surfaces. Easy to install - Crystal LED BH/CH-series video walls scale readily to create immersive visual experiences that can't be missed in large retail spaces. Add an extra sensory dimension with the SLS-1A Line Array Speaker for powerful audio that surrounds visitors.

Advertising

Deliver ads that stand out with our high-brightness premium BRAVIA BZ40L display or our largest BRAVIA BZ50L Professional Display. Our scalable Crystal LED video walls deliver compelling super-size promotional messages to shoppers. Our BH-series offers maximum brightness to ensure the best viewing experience in bright environments, while you can deliver the most true-to-life visuals with our CH-series, designed to optimise contrast. Team high-impact visuals with rich audio from our SLS-1A Line Array Speaker that's easily heard in busy shopping centres.

Wayfinding

Available in a wide range of screen sizes and suitable for vertical, horizontal or angled mounting, our BRAVIA BZ30L and BZ35L Professional Displays, with a wide range of screen sizes in up to 85", are ideal partners for interactive touchscreen solutions that guide customers safely and smoothly with clear, informative maps and wayfinding information.

Informing shoppers

The crisp 4K image quality, high brightness and extra-wide viewing angle of our BRAVIA professional displays ensure that important information is seen clearly by every shopper in crowded shopping precincts. Ideal for information points in smaller and medium shopping centres, versatile BRAVIA BZ30L and BZ35L Series cover a wide range of screen size requirements from 43" up to 85".

Fashion and apparel

Retailer trends for Fashion & apparel

Intense competition

Fashion retailers must create innovative in-store experiences that captivate and retain shoppers' attention.

Embracing digitalisation

New digital tools allow retailers to streamline operations and create powerful 'phygital' experiences.

The end of brand loyalty

Fashion has never been faster, and retailers must win the attention of customers in a non-stop saturated market.

Supporting sustainability

Shoppers favour retailers with ethical sourcing and sustainability in their products and operations.

Retail displays for fashion and apparel stores

Create unique shopping journeys and make every store visit more exciting with our display solutions

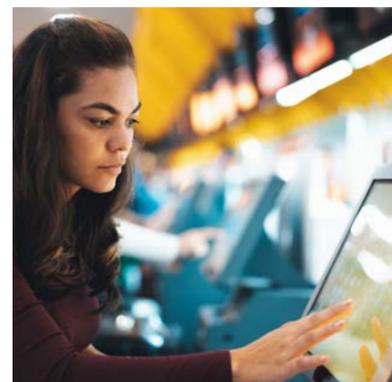

Attract shoppers and drive sales

Grab customers' attention and generate excitement around new fashion products and promotions to stimulate sales.

Heighten brand awareness

Turn your apparel store into a fashion catwalk with colourful, larger than life displays that connect customers with clothing brands.

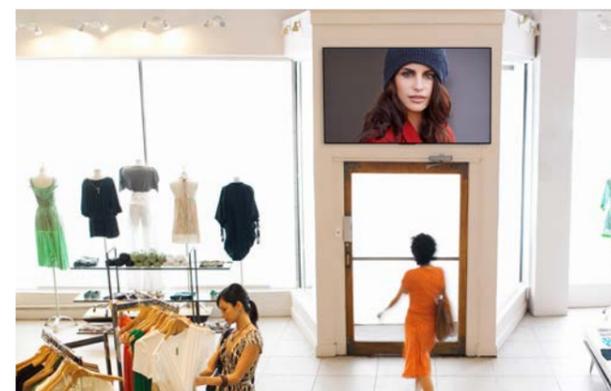

Optimise store performance

Maximise returns from every square metre of floor space with appealing, easy-to-use self-serve systems to help shoppers browse, buy and collect orders.

Attracting Customers

Capture customers' attention as they navigate through your fashion retail store with bright colourful, images from our scalable Crystal LED video walls: choose high brightness BH-series for brightly lit stores, or high-contrast CH-series for uniquely rich, vibrant images with maximum wow effect. For less conventional spaces, extra bright VPL-GTZ380 and our compact VPL-FHZ85 projectors can throw super-sized images onto any shape or type of surface. Add an extra immersive dimension with the SLS-1A Line Array Speaker for powerful audio that surrounds visitors.

Placing orders

Available in a wide range of sizes, our BZ30L and BZ35L BRAVIA Professional Displays are ideal for integration with interactive kiosks and self-order systems. High screen brightness and rich, vibrant colours ensure that clothing products look their very best, while reliable operation ensures a smooth, satisfying ordering and collection experience for store visitors.

Advertising

Our high-brightness BRAVIA BZ40L Professional Displays deliver compelling promotional messages to shoppers with rich vivid colours. Your ads stand out with our biggest 98" BRAVIA BZ50L Professional Display. Create super-sized visuals with unprecedented impact and realism with our Crystal LED BH/CH-series.

Supermarkets

Trends for supermarkets

Value-driven consumers

Money's tighter than ever for supermarket shoppers who demand true value from every store visit.

Securing a competitive edge

Premium players and value-focused brands alike are under pressure to exceed customer expectations.

Embracing digitalisation

Digital experiences can enhance sales – from in-store promotions and demonstrations to seamless self-checkout.

Supporting sustainability

Eco-aware shoppers expect brands to demonstrate sustainable thinking in their products and operations.

Retail displays for supermarkets

Create interactive experiences with eye-catching promotions and offers – supporting customers with smooth self-checkout and helpful information.

Drive sales higher

Grab shoppers' attention and generate excitement around new brands, products and promotions to stimulate on-the-spot sales.

Keep shoppers informed

Ensure customers are in the loop about special events, scheduled store closures, parking notices and other relevant information.

Optimise store performance

Maximise returns with appealing, easy-to-use self-checkout systems to help customers buy quickly and confidently with less fuss.

Inform, engage and impress supermarket shoppers

Equally suitable for showcasing new products and special promotions or presenting essential store information, our slim, easy to manage BRAVIA 4K Professional Displays are available in a wide choice of panel sizes from 43" up to 98". Video, images and text are displayed with impressive brightness, clarity and contrast that always stand out in busy supermarkets. An extra-wide viewing angle ensures that screens can be seen clearly by every shopper.

Streamlined self-checkout solutions

Slim, bright and easy to install, our versatile BRAVIA Professional Displays are ideal integration partners for third-party touchscreen overlays and kiosk solutions, simplifying the creation of interactive self-checkout systems for supermarket shoppers.

Driving down ownership costs

Our energy-efficient BRAVIA Professional Displays are designed for reliable round-the-clock operation, with low running costs and smart features for simpler screen management, such as programmable screen on/off times that cut energy consumption outside store opening hours.

Health & Beauty

Retail trends for health and beauty

Intense competition

Consumers have hundreds of brands to consider, through a wide choice of online, offline and retail marketplace websites.

Rich new experiences

New digital tools allow health, beauty and personal care brands to create powerful 'phygital' experiences across multiple channels.

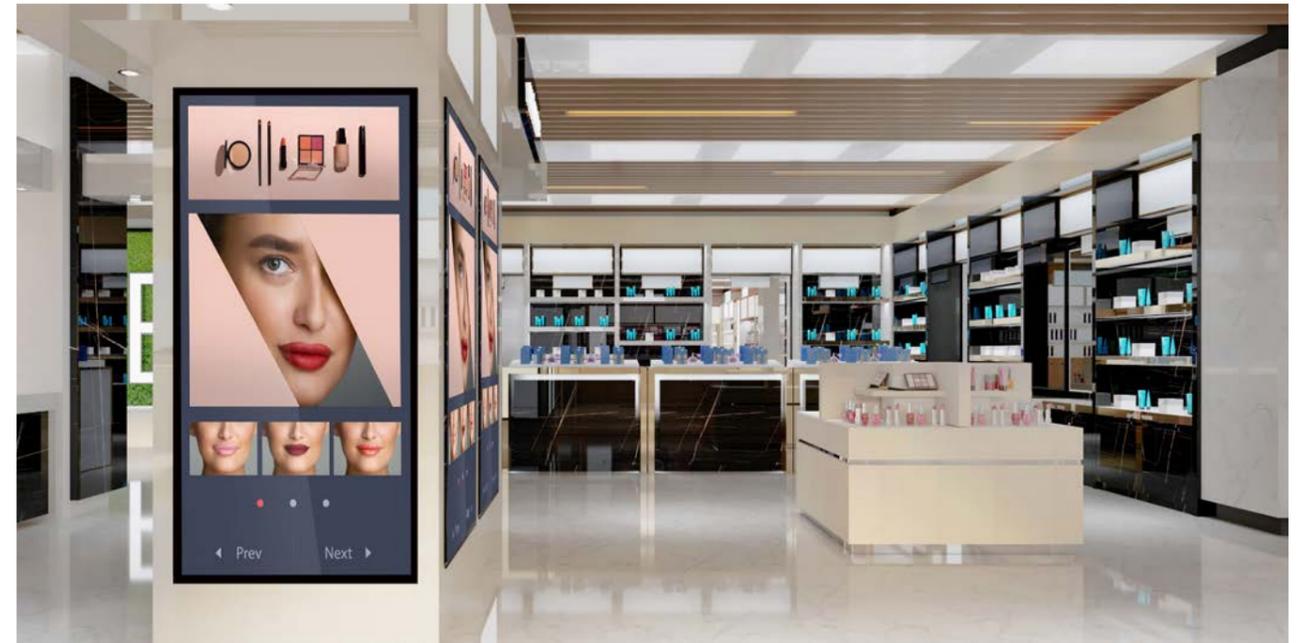

The drive for innovation

Brands must innovate in their product offerings and operations to captivate and retain shoppers' attention.

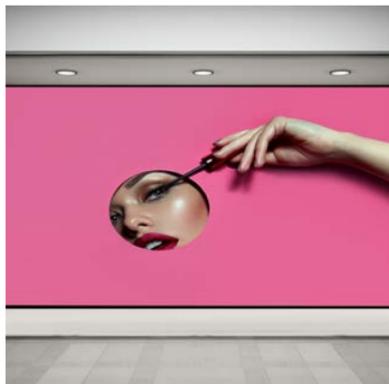

Supporting sustainability

Eco-aware consumers favour brands that implement sustainable thinking across their products and operations.

Retail display solutions for health and beauty

Grab shoppers' attention and enable personalised interactive brand communications that really stand out – and provide smooth, rewarding in-store ordering and self-checkout experiences with our bright, energy-efficient display solutions.

Create that wow effect

Build uniquely immersive audiovisual experiences that deliver on the seductive promise of high-end cosmetics, fragrance and skincare brands.

Maximise time in store

Entice customers to dwell for longer in your store and increase spending, with colourful, larger-than-life displays that command attention and stimulate sales.

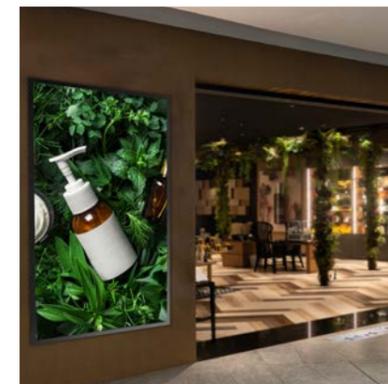

Make shopping simple

Make store visits more satisfying, with easy-to-use self-serve systems that help customers browse, buy and collect their orders.

Immersive visual experiences that attract customers

Our BRAVIA 4K Professional Displays and Crystal LED video walls showcase every exciting detail of the latest fragrance, cosmetics and skincare products with impressive brightness, clarity and contrast. Vibrant colour reproduction reveals the subtlest differences between make-up shades, while an extra-wide viewing angle ensures sensational images that are always seen clearly by every shopper.

Engage shoppers on any scale

Slim, stylish BRAVIA 4K Professional Displays are available in a wide choice of panel sizes from 43" up to 98" to suit high-end retailers and luxury stores alike. Reliable, easy-to-install laser projectors transform high-end retail environments with colourful, super-sized visuals that can be projected onto walls, ceilings, floors or curved surfaces.

Create 'phygital' shopping journeys

Our versatile BRAVIA Professional Displays are ideal integration partners for third party touchscreen overlays and kiosk solutions, simplifying the creation of interactive systems for customers to browse, buy, collect or return orders. Display and demonstrate a wider range of products. Create exciting 'phygital' virtual product tests and try-ons.

Cost-efficient retail display solutions

Our energy-efficient BRAVIA Professional Displays are designed for reliable round-the-clock operation, with low running costs and smart features for simpler screen management, such as programmable screen on/off times that cut energy consumption outside store opening hours.

Home furnishing and DIY

Trends for home furnishings and DIY

Decreasing loyalty, rising expectations

Discerning shoppers are offered a huge range of premium and value furniture, decorating and DIY brands to choose from.

The desire for personalisation

Shoppers are looking for retail experiences that are more personal, individualised and relatable to them.

Seamless omnichannel experience

Customers' buying journeys are shaped by a rich omnichannel experience with digital and physical touchpoints.

Supporting sustainability

Eco-aware consumers expect brands to demonstrate sustainable thinking in their products and operations.

Retail displays for home furnishings and DIY stores

Our energy-efficient display solutions make home and DIY stores a more welcoming destination with colourful advertising, promotions and guidance for shoppers, plus a smooth ordering and self-checkout experience.

Attract, surprise and delight shoppers

Grab customers' attention and wow your audience with interactive and immersive experiences that inspire customers and reinforce their emotional connection to your brand.

Stimulate impulse purchases

Create colourful, compelling advertising that ensures every store visitor is aware of special offers, seasonal promotions, special events and timely information on new product launches.

Optimise store performance

Maximise returns from every square metre of floor space with appealing, easy-to-use self-serve and checkout systems to help shoppers browse, buy and collect orders quickly and efficiently.

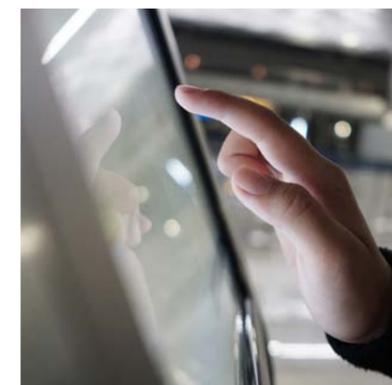

Immersive visual experiences that attract customers

Our BRAVIA 4K Professional Displays and Crystal LED video walls showcase every exciting detail of the latest fragrance, cosmetics and skincare products with impressive brightness, clarity and contrast. Vibrant colour reproduction reveals the subtlest differences between make-up shades, while an extra-wide viewing angle ensures sensational images that are always seen clearly by every shopper.

Connect with shoppers' imaginations on any scale

Slim, stylish BRAVIA 4K Professional Displays are available in a wide choice of panel sizes from 43" up to 98", while reliable, easy-to-install laser projectors make any store visit an event for shoppers with colourful, super-sized visuals that can be projected onto walls, ceilings, floors or curved surfaces.

Streamlined self-serve and checkout solutions

Slim, bright and easy to install, our versatile BRAVIA Professional Displays are ideal integration partners for third-party touchscreen overlays and kiosk solutions, simplifying the creation of interactive systems for customers to browse, buy, collect or return orders.

Dependable operation plus reduced running costs

You can't afford downtime in a busy store. Our energy-efficient BRAVIA pro displays, projectors and Crystal LED video walls are designed for reliable round-the-clock operation in home and DIY stores. BRAVIA Professional Displays offer the convenience of programmable screen on/off times to cut energy consumption outside shop hours, drive down ownership costs and support sustainability goals.

Discover our NEW Crystal LED

Go even further in bringing your customer experience to life with our brand NEW LED displays for any size and scale

Our new Crystal LED video walls deliver bigger, brighter, more colourful images that harness Sony's unique expertise in advanced imaging technologies.

It's never been easier to create spectacularly immersive shopping experiences with the latest generation of scalable Crystal LED display systems that are simpler than ever to install and maintain.

BH and CH-series

The latest generation of Crystal LED premium displays

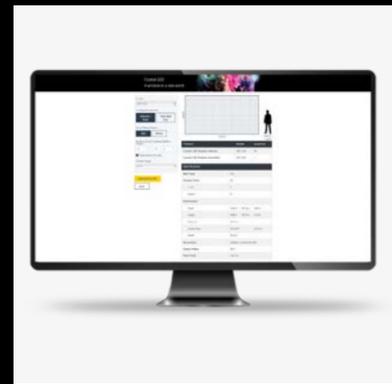

More accessible

The latest generation of Crystal LED premium displays makes the appeal of large-scale LED video walls even more accessible.

Extraordinary picture quality

BH and CH-series harness latest Sony imaging innovation to deliver extraordinary picture quality at an affordable price.

Flexible installation

They're also designed for even greater installation flexibility and serviceability. What's more, power consumption is reduced to make overall ownership costs even more appealing.

[Explore our new BH/CH series >](#)

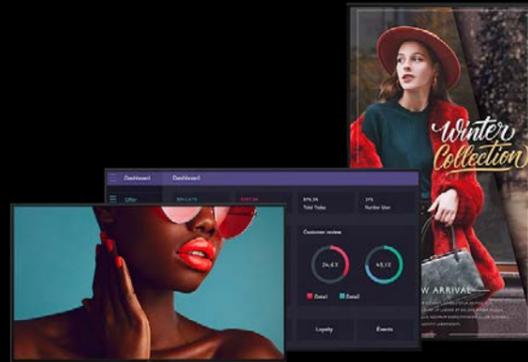

Discover our NEW BRAVIA BZ40L Series

Exceptionally bright 4K displays with unique deep black non-glare technology. Available in screen sizes 55", 65", 75" and 85".

BRAVIA BZ40L Professional Displays are packed with Sony innovation – including the latest Deep Black Non-Glare technology – for impressively bright, high-contrast 4K HDR images with sumptuous colours and exquisite detail that can be achieved in even the brightest/high ambient light retail environments.

Pro-friendly features simplify integration, easy operation and seamless content sharing in today's connected AV environments.

BRAVIA BZ40L Series

Superlative picture quality. Made for professionals.

Clarity and contrast

Sony's Deep Black Non-Glare Coating combines anti-glare and low-reflection technologies. Reducing reflections and boosting contrast, it's the key to dynamic visuals bursting with true-to-life colour and detail.

Flexible installation

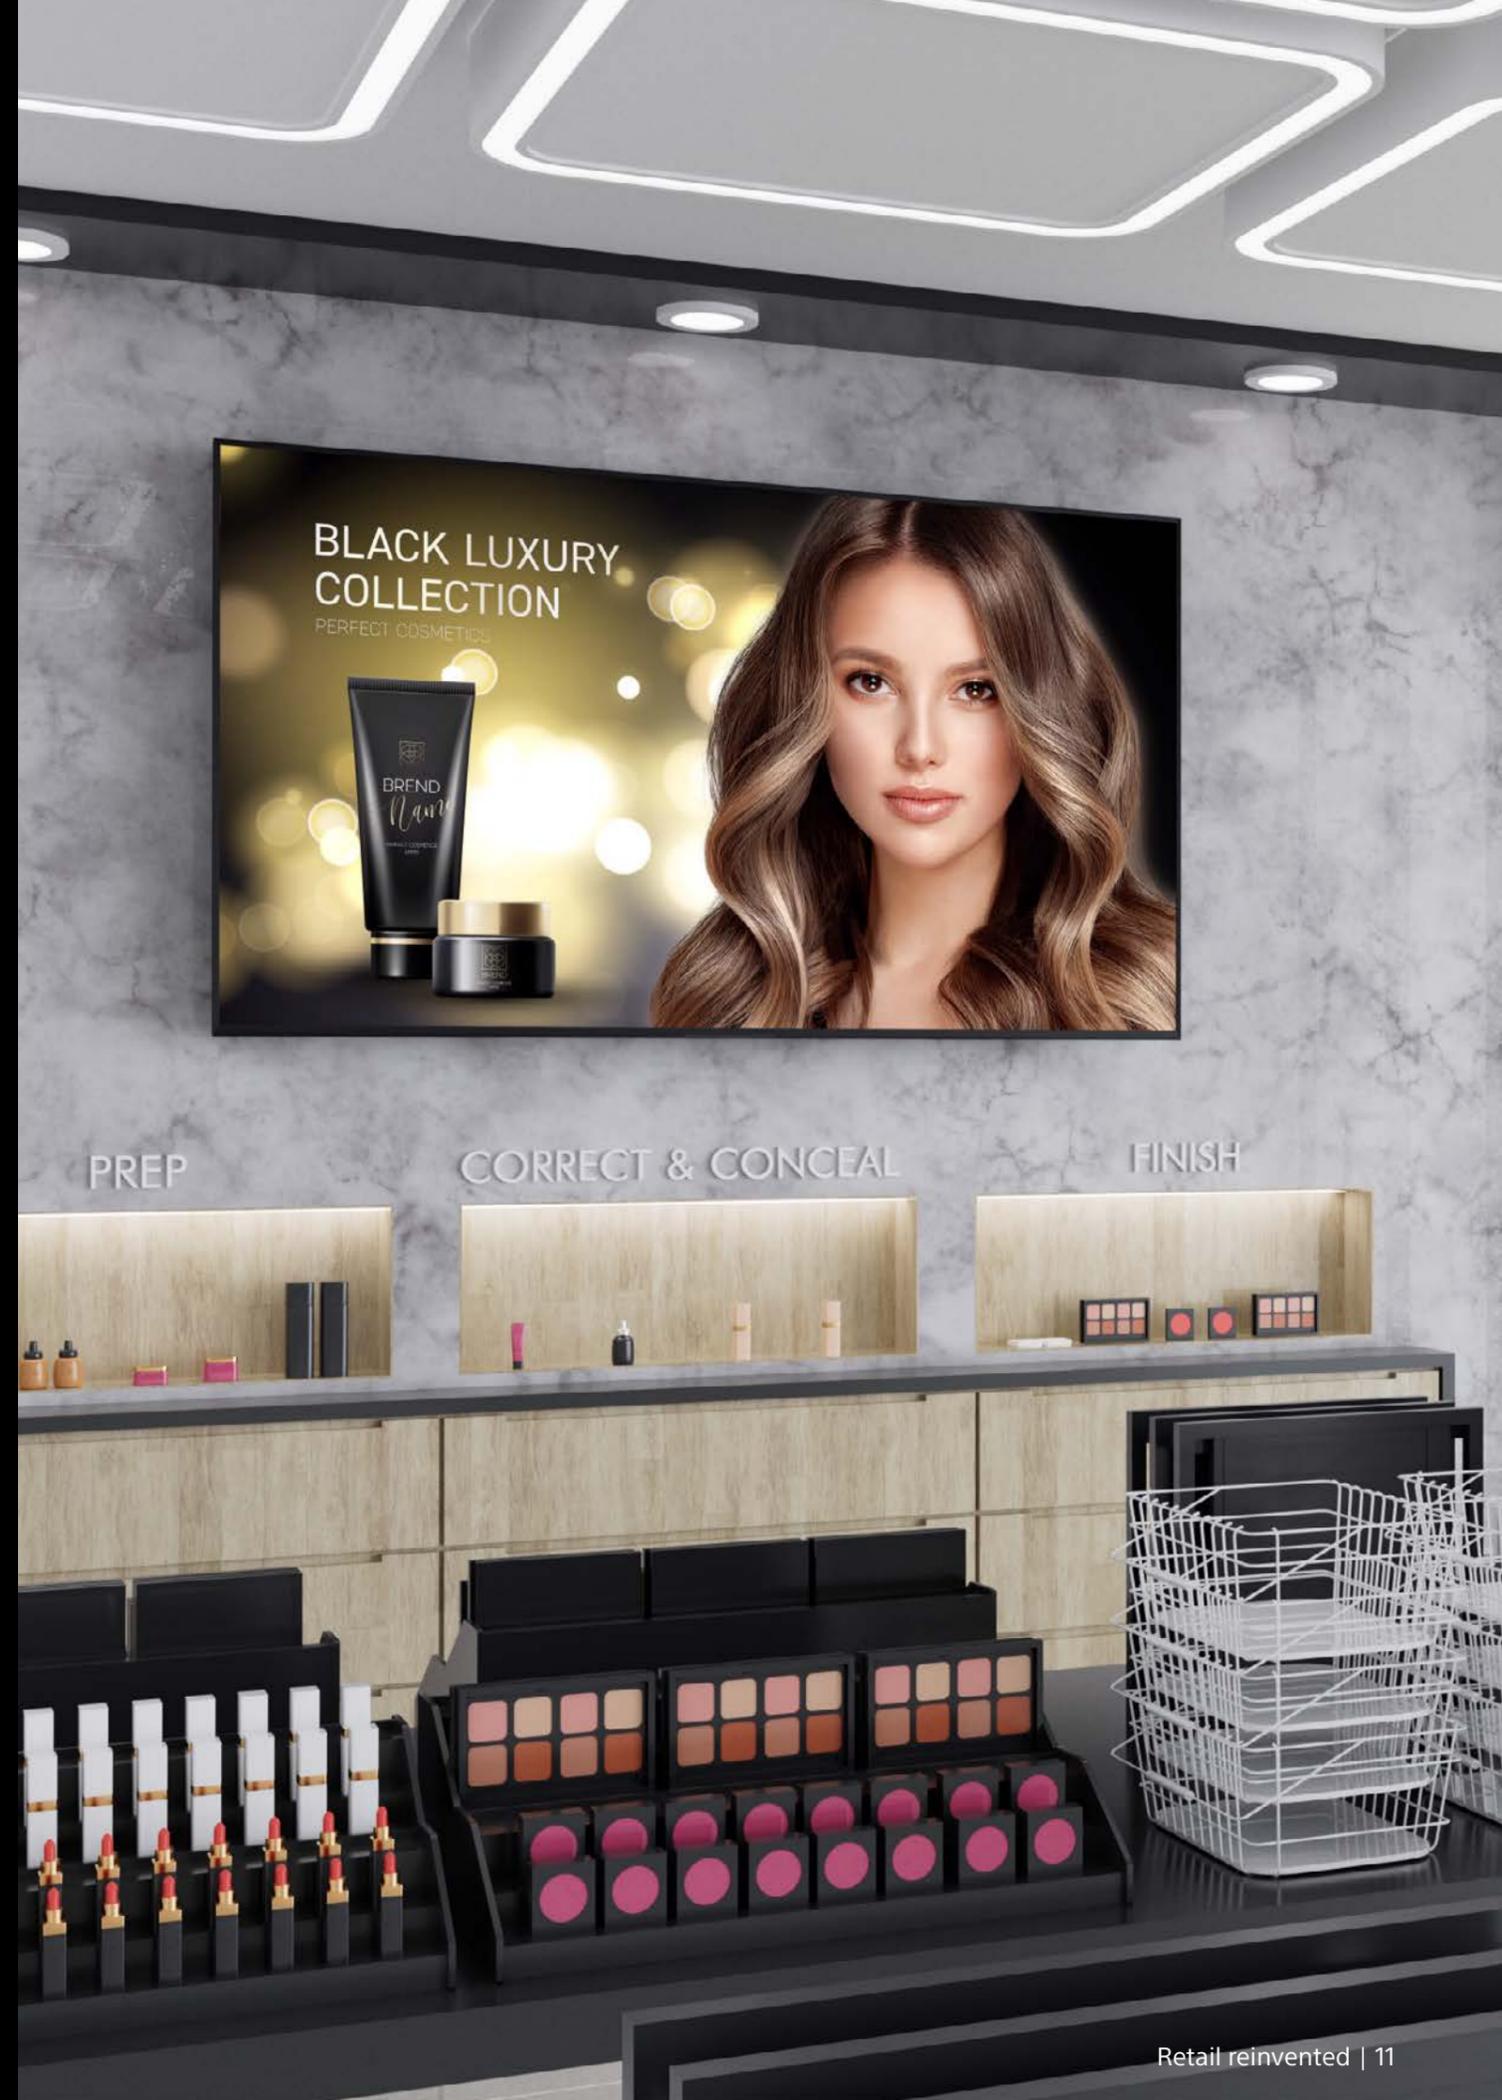

The sleek, minimal design of BRAVIA BZ40L Series brings impeccable style to any business environment. The display's elegant lines are further enhanced by practical touches for seamless integration in retail stores.

Robust usability

The BRAVIA BZ40L Series contains a host of useful functions for business, such as purpose driven applications and setting customization to make daily work more efficient.
