

# Return to Office Workshop

An opportunity to discuss elements of the RTO program

## SMART SENSORS AND VIDEO

## TOUCHLESS ENTRY

## ALERTS AND INFO SHARING

## CONTACT TRACING

## SMART WORKSPACES

## AUGMENTED MENTORING

Connection's RTO Workshop is delivered by experienced technical solutions architects with knowledge of advanced IT infrastructure and a proven methodology for a successful project.

## RTO is Comprised of Several Components:

- Thermo / Video Cameras
- Social Distance, Contact Tracing, and Continuous Location Tracing
- Building Entry, Notification and Smart Spaces
- Augmentative Mentoring

## What to Expect:

- Review of the different components of the solution
- How the components can be used together
- Customized technical and strategic presentation
- Discussion on privacy matters

## RTO Workshop Discussions:

- What are you experiencing in the re-opening of your environment?
- What is your vision of the future office environment?
- What issues are you having in your production environment?
- What is keeping you up at night in bringing students back to your university?
- Review the 6 components of the ConnectAware solution and determine what is important to you
- Discuss the journey and timelines
- Get guidance on products you are investigating
- Importance of API integration
- Does privacy matter?
- Is asset tracking in your future?
- How old is your access control system?
- Would automated UVC cleansing be interesting?
- Have you investigated augmentative mentoring or remote expert technologies using wearables?
- Have you started down the IoT / AI journey?
- Will you be looking to optimize your current office space now that people are working remote?
- Do you have a plan to address your needs as they evolve?
