

Built for security, designed for trust

Cyber-resilient | A Zero Trust approach | AI-ready

A foundation of built-in protection

Held to the same standard as all Microsoft services and software, Microsoft Surface devices provide uncompromising chip-to-cloud security, put ultimate control in your hands, and provide peace of mind wherever and however your work gets done.

Security

- Get powerful Windows 11 Pro security by default
- Stay protected with encrypted security at every layer
- Surface implements Microsoft's Zero Trust-based engineering system to ensure a secure development infrastructure

Management

- Simplify set up with zero-touch deployment¹
- Remotely deploy updates and monitor health¹
- Reduce device management time and repairs²

Peace of mind

60%

of SMBs go out of business within six months of a data breach.³ Businesses that choose Surface choose peace of mind.

Microsoft Surface and trust

Surface Copilot+ PCs⁴ bring software and hardware together—from device to cloud—to build an end-to-end AI experience that supports employees, IT needs, and your small business.

Built for security, designed for trust

Microsoft Surface Pro for Business and Microsoft Surface Laptop for Business with the Microsoft Pluton security processor are Secured-core PCs for the highest level of Windows PC protection. With Windows 11 and Windows Hello Enhanced Sign-in Security (ESS), Surface Pro for Business and Surface Laptop for Business provide unparalleled biometrics security you can trust.

In a global environment where security threats are ever-increasing in sophistication, Surface provides world-class security across multiple layers including hardware, firmware, software, application, and identity. From conceptual design to a team members' first Hello – Surface reduces complexity and elevates trust.

Surface Pro for Business and Surface Laptop for Business

- Secured-Core PCs
- Microsoft Pluton technology
- Secure Authentication
- Windows 11 Pro
- Granular control for IT
- Simple management and deployment
- Secure supply chain
