# Built-in Google AI for your business with Chromebook Plus

Chromebook Plus is powerful, affordable, and helps your team do more with Google AI built in.

Tools to enhance team productivity

With **2X** the power, speed, memory, and storage, and built-in AI features to enhance creativity and collaboration, your team is empowered to do their best work.[*]

Work effectively, online or offline

No Wi-Fi, no problem with **File Sync**. Available with Chromebook Plus, File Sync **automatically syncs** files to File Manager, so Google Docs, Sheets, and Slides are always accessible—**even when offline.**

Get more done with less cost

With devices that have a **208% ROI** over three years and are lightweight, portable, and secure—with long battery life—your people can work from anywhere and you could **reduce your total cost of ownership**.[1]

Built-in, not bolted-on, security

With devices that have never had a virus and **ZERO reported ransomware attacks**, your data is secure.[**] ChromeOS provides a 90% incremental security reduction.[1] In fact, ChromeOS is the most secure OS out of the box when contrasted with macOS and Windows 11.[2]

Chromebook Plus improves productivity and team collaboration with Google AI

## Help me be more productive

Help me read: Summarize any website or PDF with just a click.
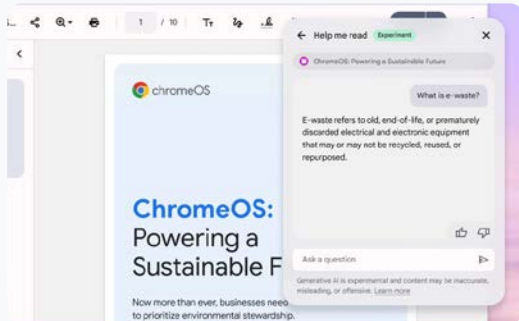

Text capture: Use Gen AI to quickly extract information from anything on your screen and receive contextual recommendations on next steps.

Help me write: Easily refine text on any website or application.

**Quick Insert:** Instantly insert links, photos, files, Calendar events, and more with Quick Insert.

Welcome recap: Prompt on login to reopen relevant content, such as windows and apps used before logging out.
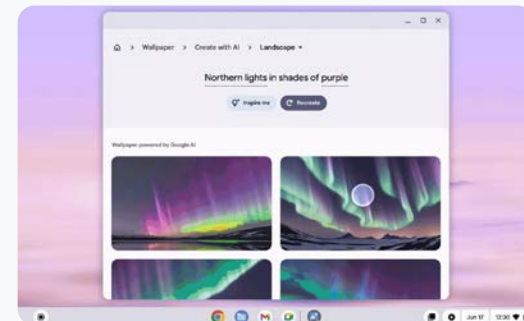

Help me create & collaborate

Live Translate: Enable Google AI-translated captions on any meeting platform, live streams, and .mp4 files.

Generative wallpapers and video call backgrounds: Personalize backgrounds across any conferencing application and your desktop wallpaper.

Quick Insert with Image Gen: Generative high quality AI images and automatically insert them into emails, slides, documents, and more.

Screencast: Quickly record, edit, and share a video, with automated captions and translation in 12 different languages.

Enhanced video call controls: Automatically enhance clarity and lighting, cancel noise, and blur backgrounds.

Explore Chromebook Plus devices

Unlock all the built-in capabilities of ChromeOS for your business, with **ChromeOS Enterprise devices** or purchase **ChromeOS device management** and attach it to your existing devices.
