Acer for Business

Built for you

In the new digital age, workers across the globe are adopting hybrid work environments that call for fast, secure, and reliable technology. Acer offers the power, optimization, and flexibility to keep your team running seamlessly while prioritizing cybersecurity and sustainability. Whether you are preparing for business continuity plans, supporting a new generation of end users, or shifting to a mobile workforce, Acer has a solution suited for your business and budget.

With a diverse product portfolio and unrivaled service and support, Acer puts our partnerships first. Learn why Acer for Business is your trusted partner to support your workforce's technological needs.

Sustainable & Socially Responsible

Acer's corporate commitment is to build a resilient company for a sustainable future. We continue to prioritize and take great steps, such as utilizing eco-friendly materials and packaging, to reduce the impact our products have on natural resources by being environmentally, morally, and socially responsible.

Robust Portfolio

Acer delivers class-leading performance, security, and manageability to every business with a comprehensive range of products and solutions designed for lasting success. Featuring:

- Windows Professional device solutions
- ChromeOS Enterprise device solutions
- Display solutions
- Eco-friendly device and display solutions
- Complementary accessory solutions

Award-Winning Service & Support

With over 40 years of experience in the world of computing, Acer understands the challenges within the evolving market. We are dedicated to aligning our award-winning services with our customers and offering outstanding assistance, technical support, and free on-demand training.

- U.S.-based Premier Support
- Fast response time with no "scripts"
- Self-maintainer programs
- · Personalized real-time service

Reliable and Durable

Acer offers a breadth of innovative products and solutions that are built and tested to last with a durable chassis design and long-lasting battery life. Our reliability is top-notch and comes with professional warranty services.

- Certified military-grade durability
- · Subjected to tough reliability testing
- Extended service plans

Secure by Design

Acer recognizes the importance of cybersecurity and protecting the personal information and privacy of our clients. We prioritize safeguarding data against security and external threats. Minimize firmware vulnerabilities, malware threats, and ransom attacks while operating securely with Acer device's*:

- Advanced OS and "on-by-default" security features
- · Built-in TPM, fingerprint sensor, and camera shutter
- Acer PrivacyPanel display obscurity technology

*Specifications, features, and availability may vary depending on model
