

# R-Zero Arc

Surface and air disinfection  
with UV-C

rzero

The first germicidal UV system designed for dynamic environments, Arc destroys harmful pathogens—including human coronavirus, influenza, norovirus and E. coli—in less than 7 minutes.

### Highly Effective

UV-C power, disinfects everything the light touches—floors, ceilings, walls, furniture, air...everything. Proven to destroy 99.99% of surface and airborne pathogens in a 1,000 ft.<sup>2</sup> room in just 7 minutes.

### Safer Than Chemicals

Environmentally-friendly UV-C reduces chemical consumption and exposure, and is safe to use around food surfaces, electronics, furniture and more.

### Cost Effective

UV-C disinfection eliminates the need for costly chemical refills, PPE, dedicated operators and other safety equipment. UV-C requires none of those and takes far less time.
