

DIGITAL WORKSPACE SOLUTIONS

Top Use Cases for AI in Business by the Numbers

As digital debt soars, employees spend less than 3 hours a day doing impactful work. But AI is already driving massive gains.

Surging Digital Debt

Digital debt: A burden of digital work such as emails, data entry, searching for information, and processing documents that prevents employees from completing projects.

Of surveyed employees:

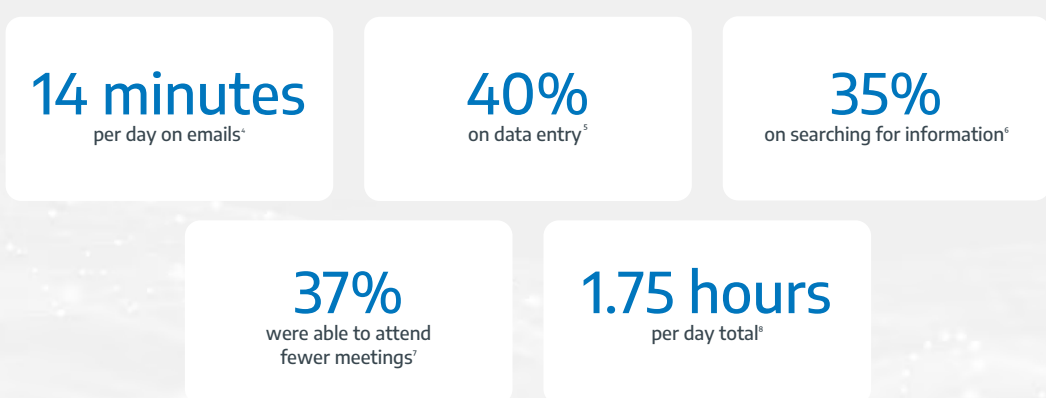

Each Day, the Average Employee Spends Up To:

- 3 hours searching for information²
- 3 hours fixing errors³
- 3 hours on data entry³
- 1.7 hours on email⁴
- 1.5 hours in meetings¹

and less than 3 hours doing impactful work²

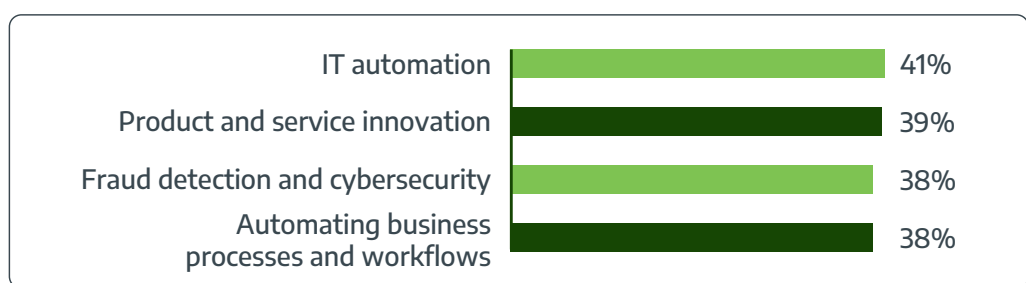

Employees Who Use AI Report Saving

And a 40% performance improvement.⁹

- Software development
- Copywriting
- Running simulations
- Summarizing information
- Personalized customer engagement
- Analytics
- Training

The Future of AI at Work

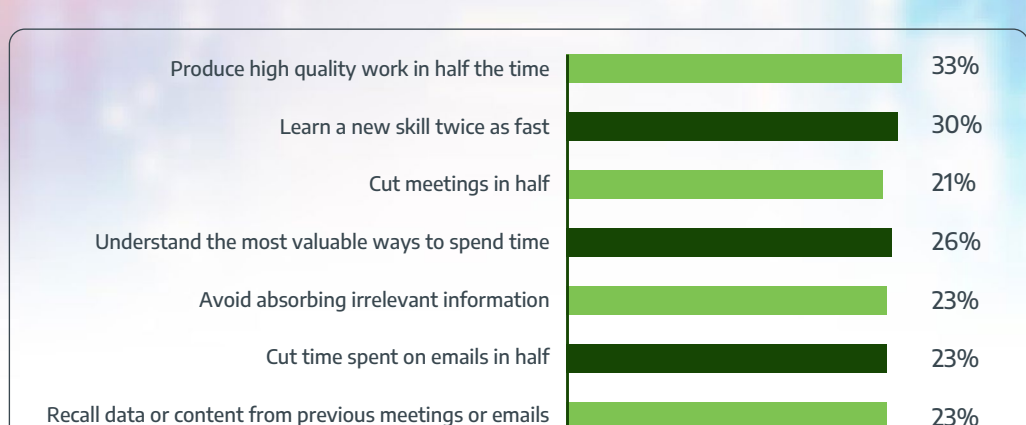

AI is set to transform the business world as we know it.

“It’s fascinating that people are more excited about AI rescuing them from burnout than they are worried about it eliminating their jobs.”

—Adam Grant, author and organizational psychology professor
