

MICROSOFT 365 COPILOT TECHNICAL READINESS ASSESSMENT

Our Professional Services Team at Connection offers a comprehensive Microsoft 365 Technical Readiness Assessment designed to empower your organization for success with Microsoft Copilot.

Key Benefits

- Learn about the Microsoft 365 Copilot vision, technical requirements, and productivity promise.
- Gain a comprehensive understanding of steps you need to take to prepare for Copilot.
- Receive actionable reports detailing migration approaches, data risks, and suggested remediation approaches.

Workshop Outcomes

Understanding Your Current State

- Our Professional Services Team collaborates with your stakeholders to assess the current state of data security and governance within your organization.
- We identify gaps and opportunities for improvement to ensure you're well prepared to enable Microsoft Copilot.

Tailored Recommendations

- Based on our assessment, we provide actionable recommendations to prepare your environment for Copilot adoption.
- These recommendations cover aspects such as readiness, remediation, design, and enablement across your organization.

We understand that each organization has unique requirements and that the scale and scope of these needs can vary. Connection is committed to delivering this service within a 40-60-hour time frame.
