Location in a Box

Everything You Need, Exactly the Way You Want IT

First impressions are important—especially when it comes to new technology. Do you have the available IT resources, physical space, and project timelines you need to support seamless deployments? With the experts from Connection's Technology Integration and Distribution Center (TIDC), you do.

Our Location in a Box (LiaB) solution delivers fully provisioned, labeled, and tested hardware in one convenient shipment, so you can ensure your workforce has the best possible end-user experience during your next tech rollout. Users get to enjoy technology that's ready to go right out of the box, and your IT staff gets equipment configured to their exact specifications—reducing setup and support costs and eliminating potential roadblocks.

Take advantage of one-stop shopping by sourcing all of your equipment from Connection. Whatever you need to get work done, the experts in our TIDC can design a total custom solution that exceeds your expectations.

Call today to discuss our LiaB offering and save time and money on your next technology deployment.

One Purchase Order
We are a one-source solution provider for all of the devices your location requires.

Customizable
LiaB can be a total custom solution designed, built, and delivered for your organization.

Pre-configured and Tested
All hardware is provisioned, labeled, and tested to ensure easy installation and to eliminate the possibility of DOA devices.

One Shipment and On-Time Delivery
Once equipment is built and tested, we box and pallet so all equipment is received at the same time—exactly when it's needed.

Reduced Install Time
By pre-provisioning and testing equipment in our lab, we are able to reduce the time techs need to perform the installs.

Logistics "Last Mile Delivery"
If there are special requirements for delivery, we can set up white glove services to address your specific needs.

Cost Savings
When using our services, you reduce the cost of provisioning and installation time, which reduces your overall project cost.
