1 Touch capable tablet or PC required.

2 Limited to Continuum-capable phones. External monitor must support HDMI input. App experience varies. Feature may require Continuum-compatible accessories, all sold separately.

3 Hardware dependent; pen accessory may be sold separately.

4 Cortana available in select markets; experience may vary by region and device.

5 Not all MDM capabilities are available in the Home SKU. MDM requires an MDM product such as Microsoft Intune or other 3rd-party solutions (sold separately).

6 Separate subscription for Azure Active Directory required.

7 Available in select markets. Functionality and apps may vary by market and device.

8 To use Windows Hello with biometrics specialized hardware, including fingerprint reader, illuminated IR sensor, or other biometric sensors is required. Hardware based protection of the Windows Hello credential/keys requires TPM 1.2 or greater; if no TPM exists or is configured.

9 Kiosk mode in Windows 10 Pro allows for a single Universal Windows Platform app configured locally.

10 Dynamic Management available only through MDM. MDM requires an MDM product such as Microsoft Intune or other 3rd-party solutions (sold separately).

11 Requires either App-V Server (available at no additional cost as part of Windows 10 Assessment and Deployment Kit) or System Center Configuration Manager (sold separately).

¹² To use Windows Hello with biometrics specialized hardware, including fingerprint reader, illuminated IR sensor, or other biometric sensors is required. Hardware based protection of the Windows Hello credential/keys requires TPM 1.2 or greater; if no TPM exists or is configured, credentials/keys protection will be software-based.

¹³ Requires TPM 1.2 or greater for TPM based key protection.

¹⁴ Windows Information Protection requires either Mobile Device Management (MDM) or System Center Configuration Manager to manage settings. Active Directory makes management easier, but is not required.

¹⁵ Requires UEFI 2.3.1 or greater with Trusted Boot; Virtualization Extensions such as Intel VT-x, AMD-V, and SLAT must be enabled; x64 version of Windows; IOMMU, such as Intel VT-d, AMD-Vi; BIOS Lockdown; TPM 2.0 recommended for device health attestation (will use software if TPM 2.0 not present).
