

# Office 365 Velocity

## What's the Connection® difference?

Starting your journey to Microsoft's Cloud Productivity Platform, Office 365, will offer you many benefits and options. Connection's Office 365 Velocity program can help you understand the best options, and the best path forward with Office 365 for your organization. As a Microsoft Cloud Productivity Gold Partner, our team is trained and certified in strategy, planning, deployment and migration services.

Connection's Cloud Services team offers the following services that can assist you with piloting, purchasing and deploying Office 365:

### Explore

**Office 365 Discovery Session** – Talk with a Connection® Cloud Specialist or Solution Architect regarding your business needs and how Office 365 can help.

- Start with a complimentary demonstration of Office 365's services and features for end users and admins
- Purchase optimization is also available. Find the right Office 365 plan under the right buying program for your organization

### Office 365 Customer Immersion Experience (CIE)

– The Microsoft Customer Immersion Experience (CIE) gives senior stakeholders and decision makers the chance to test drive the latest Office 365 technologies in a fully integrated environment.

- All products are setup and configured with representative (fictional) users and data, allowing real life scenarios to be instantly simulated.
- The CIE is a great way to get hands on with the latest Office 365 features and services, in an interactive, experiential and fun environment.

**Office 365 Velocity Pilot** – Partner with a Connection® Office 365 expert and launch a complimentary Office 365 E3 pilot for 30-days with 25 users.

- Gain hands-on experience by testing out Office 365 for your organization
- Includes one hour of administration training
- Our Velocity Pilot may also be extended to 250 users and 90 extra days if needed for qualifying customers
- When you're ready, your Velocity pilot will port right into production

### Plan

#### Office 365 Velocity Deployment and Planning Services (DPS)

– Connection® understands that planning is key to a successful rollout of Office 365 in any organization. As a Gold Cloud Productivity Partner, we can help you consume your Microsoft Software Assurance benefits and plan for your migration to Office 365.

- Start with a standard 3-day planning workshop to understand project objectives, challenges and success criteria of your Office 365 migration project
- Optionally, extend to a 10-day planning and build on your 3-day session with a workshop that will allow you to obtain a deeper understanding of how Office 365 maps to your business priorities, as well as, gain deeper access to technical expertise and recommended guidance

### Deploy

#### Office 365 Velocity Deployment and Migration Services

– Work with the Connection® Cloud Services Team to get your organization onto the Office 365 platform by taking advantage of our deployment & migration services.

- Identity Management Configuration with Azure AD or Azure AD Premium
- Single Sign On (SSO) with ADFS for Office 365
- Greenfield Office 365 deployments
- Email migrations from any platform to Exchange Online
- Data migrations to OneDrive for Business and SharePoint Online
- Skype for Business Online deployments and migrations from older versions of Lync or OCS
- Office 365 Pro Plus deployments
- MDM deployments

## Adopt

**Office 365 Training and Adoption** – Your investment can only go as far as your users take it. Choose from a variety of end user adoption and training programs to complete your Office 365 deployment. Reach 'Power User Status' in no time with these great offerings:

- Brainstorm Quick Start Cards
- Brainstorm Quick Help Video Based Training
- Brainstorm Instructor Led Training

## Benefits of Using Office 365 for Your Business

- Get it done from anywhere: PC, MAC, tablet, phone? Office 365 gives people access to everything they need to get the job done from anywhere. Files and settings are synced from one device to the next.
- Emails and calendar on the go: Office 365 is the one destination for email, calendars, files, contacts and tasks. Coordinate meetings on the go, access synchronized contacts, check your task list and use intelligent tools to manage your inbox.
- Store, sync and share your files: OneDrive for Business lets your team collaborate on documents, share reports with partners, and connect with customers from virtually any device. Do away with multiple versions by enabling everyone to work on the same file simultaneously.
- Run more effective meetings: With Office 365 and Lync, people can join or start a meeting in just one-click, whether across the hall or across the globe. Share your desktop, IM, view presence, call peer-to-peer, HD video chat and real-time note taking can help meetings matter.
- Work like a network: Yammer helps your organization listen, adapt, and grow in new ways by working like a network. Yammer makes connecting your distributed workforce easy. And most importantly, it inspires unity and innovation by allowing people to learn, share, and be heard.
